

Analysis of Learning Task

Instructional goal's domain of learning classification:

Intellectual

Entry Skills:

- How to multiply
- How to multiply one digit by three digits
- How to multiply one digit by four digits
- How to divide
- How to do long division without remainders
- How to do long division with remainders
- How to hold a Sony handheld camcorder steady
- How to record a video using the Sony handheld camcorder
- How to stop recording a video using the Sony handheld camcorder

Major Steps:

One student will record each student that is teaching a mathematical skill.

Demonstrate how to multiply 3 digits by one digit.

Demonstrate how to multiply 4 digits by one digit.

Demonstrate how to do long division without remainders.

Demonstrate how to do long division with remainders.
